SUMMARY

A motivated and detail-oriented Computer Science undergraduate with over three years of hands-on experience in web development and graphic design. Strong background in building modern web applications using React, Next.js, and Node.js, along with UI/UX design using Figma. Experienced in developing complete systems from frontend to backend, with a passion for learning new technologies and building real-world software solutions.

EDUCATION

SZABIST University, Islamabad
B.S. in Computer Science — 7th Semester (Current)
FSC in Pre-Medical — (2022)

TECHNICAL SKILLS

JavaScript: ReactJS, NextJS, NodeJS, HTML/CSS
UI/UX & Design: Figma, Graphic Design, User Interface Design
Databases: MySQL (Basic)
Tools: Git, VS Code, REST APIs

EXPERIENCE

Freelance / Home-Based Developer & Designer — Rawalpindi, Pakistan

Web Developer & Graphic Designer | 2022 – Present

- Designed and developed responsive websites using React and Next.js.
- Created modern UI/UX designs for web and mobile interfaces using Figma.
- Built authentication systems including login and registration modules.
- Developed dynamic frontend components and integrated REST APIs.

NAVTTTC Institute—Rawalpindi, Pakistan

Graphic Designer Trainee

- Completed professional training in graphic design fundamentals.
- Designed logos, banners, posters, and social media creatives.
- Learned design principles, color theory, and layout composition.

Hazza Institute — Rawalpindi, Pakistan

Web Development Trainee

- Trained in full-stack web development fundamentals.
- Built static and dynamic websites using HTML, CSS, JavaScript, and PHP.
- Implemented basic database connectivity and form handling.

SOFTWARE ENGINEERING PROJECTS

Personal Portfolio Website • Front-End Developer • Web App

A personal portfolio built using React and Next.js to showcase projects and skills.

- Developed a responsive portfolio using React and Next.js framework.
- Integrated external APIs for dynamic content loading.
- Implemented clean UI design and smooth navigation.

Pharmacy Management System • Full-Stack Developer • Web App

- Designed and developed a complete pharmacy management website.
- Implemented product management, stock handling, and billing features.
- Built frontend interfaces and connected them with backend logic.

Authentication & Login System • Web Developer • Module

- Developed a secure login and registration system.
- Implemented form validation and session handling.
- Integrated authentication with backend APIs.

Final Year Project (Ongoing) • Team Member • AI System

AI Powered Car Inspection and Rating System.

- Working on an AI-based system for automated car inspection and rating.
- Contributing to documentation, testing, and deployment planning.

GRAPHIC DESIGNING PROJECTS

Brand Identity Design Project • Graphic Designer • Branding

A complete brand identity design created for a small business to establish a professional visual presence.

- Designed logo, business card, and letterhead using Adobe tools and Figma.
- Developed consistent color palette and typography guidelines.
- Created branding assets suitable for print and digital platforms.

Social Media Marketing Designs • Graphic Designer • Design Campaign

- Designed creative social media posts, banners, and ads for marketing campaigns.
 - Created engaging layouts to improve audience reach and brand visibility.
- Optimized designs for Facebook, Instagram, and web platforms.

UI/UX Design Project • UI/UX Designer • Web & Mobile

- Designed modern user interfaces for web and mobile applications using Figma.
 - Created wireframes, mockups, and interactive prototypes.
- Focused on usability, layout consistency, and user experience improvement.
